Q. Create a web page that accepts details of employees in a company a) Store the employee details like emp_id, emp_name, job_name, manager_id, salary in database
b) Display the employee name and salaries of employees whose salary greater than 35,000 in neat format.

Program Code:

```
<?php
$conn=mysqli_connect("localhost","root","","webdatabase");
if($conn)
{
    echo "connection established\n";
}
else
{
    echo "connection not established";
}
if(isset($_POST['submit'])){
    $eid=$_POST['eid'];
    $ename=$_POST['ename'];
    $jname=$_POST['jname'];
    $mid=$_POST['mid'];
    $salary=$_POST['salary'];
    $query="INSERT INTO employeeedetails(emp_id,emp_name,job_name,manager_id,salary)
    values('{$eid}','{$ename}','{$jname}','{$mid}','{$salary}')";
    if(mysqli_query($conn,$query))
    {
        echo "data inserted\n";
    }
    else
    {
        echo "data not inserted";
    }
}
$result=mysqli_query($conn,"select emp_name,salary from employeeedetails where salary>35000");
?>
<html>
    <head>
        <title>Employee</title>
    </head>
    <body style="background-color:rgba(255, 99, 71, 0.5);">
        <h1>Enter Employee Details</h1>
        <form method="POST" action="" name="form">
            <table cellpadding="20" align="center" style="background-color: tomato;" >
                <tr>
                    <td align="left">
                        <label>Employee Id:</label>
                    </td>
                    <td align="left"><input type="text" name="eid" size=18 autofocus="required" placeholder="enter employee id"></td>
                </tr>
                <tr>
                    <td align="left" >
                        <label >Employee Name</label></td><br>
                    <td>
                        <input type="text" name="ename" placeholder=" enter name" autofocus="required" ></td>
                </tr>
                <tr>
                    <td align="left">
                        <label>Job Name</label>
                    </td>
                    <td align="left"><input type="text" name="jname" placeholder="enter job name"></td>
                </tr>
            </table>
        </form>
    </body>
</html>
```

```

        </tr>
        <tr>
        <td align="left">
        <label>Manager Id</label>
        </td>
        <td>
        <input type="text" name="mid" placeholder="enter manager id" autofocus="required" >
        </td>
        </tr>
        <tr>
        <td>
        <label>Salary</label>
        </td>
        <td>
        <input type="text" name="salary" autofocus="required" placeholder="enter salary">
        </td>
        </tr>
        <tr>
        <td><input type="reset" name="clear" value="clear"></td>
        <td><input type="submit" name="submit" value="submit"></td>
        </tr>
        </form>
        <table cellpadding="5" align="center" style="background-color:tomato;" width="500" cellspacing="5"
border=2>
        <br>
        <hr>
        <br>
        <h1>Employee Details</h1>
        <tr>
        <th>Employee_Name</th>
        <th>Salary</th>
        </tr>
        <?php while($row=mysqli_fetch_array($result)):?>
        <tr>
        <td><?php echo $row['emp_name'];?></td>
        <td><?php echo $row['salary'];?></td>
        </tr>
        <?php endwhile;?>
        </table>
    </body>
</html>

```

Output:

connection established

Enter Employee Details

Employee Id:	emp005
Employee Name	anu
Job Name	accountant
Manager Id	mg003
Salary	42000
clear	submit
